

CPA RESPONSE TO COMPETITION COMMISSION

RE: ANGLO AMERICAN (TARMAC)/LAFARGE MERGER INQUIRY

In response to your letter dated 14 September requesting information on organisations that are involved with Tarmac and/or Lafarge, the Construction Products Association has both Tarmac and Lafarge as company members. The Association has 24 companies members and 44 Trade Association members across all parts of construction product manufacturing and supply. The Association is a representative body for the whole industry and, as a consequence, is not involved in the markets that Tarmac and Lafarge operate in. In addition, the outcome of the Competition Commission inquiry is not an issue for the Association and does not affect our operations.

If you require any other information then please contact myself at the Association (contact details below).

Dr. F. Noble Francis
Economics Director
Construction Products Association
