Dear Bunna

## **PUBLIC TRANSPORT TICKETING SCHEMES BLOCK EXEMPTION**

South West Trains (SWT) is in favour of the block exemption from UK competition law for multi-ticketing arrangements to be renewed to 2016.

SWT covers a vast part of the country, including parts of London, the South East and South West regions. We are committed to integrated transport and work local authorities and transport operators to support local communities.

We support the continuation of block exemption, enabling the industry to save customers money and make journey-making more convenient. For example, today, we are part of the travelcard agreement offering train-tube fares in London and the suburbs, offering customers the flexibility of using paper tickets and Oyster cards for travelling on trains and tubes.

Yours sincerely

James Vickers  
Commercial and Business Development Director
