1. Call Context

1.1. Background

A single European Structural and Investment Funds (ESIF) Growth Programme has been set up to combine three separate European Funds. These are:

- European Regional Development Fund (ERDF)
- European Social Fund (ESF)
- part of the European Agricultural Fund for Rural Development (EAFRD)

The Growth Programme provides funding to help projects in England that create jobs and economic growth. Department for Environment, Food and Rural Affairs (Defra) has responsibility for managing EAFRD. Rural Payments Agency (RPA) manages these grants on behalf of Defra.

Government has allocated £177 million of rural development funding from EAFRD for grants in the Growth Programme. These grants are available for:

- funding and developing micro, small and medium-sized rural businesses including food processing
- funding for small scale tourism infrastructure and tourism co-operation

1.2 Local Enterprise Partnerships

Local Enterprise Partnerships (LEPs) are private sector-led partnerships between local authorities and businesses. Each LEP has set out in its ESIF strategy the local priorities for this funding the aim of which is to achieve economic growth in its area. There are 39 LEPs covering England, 37 have an allocation of rural development funding. To apply for this funding the project must be located in a rural area in England.

1.3 Other Rural Development Funding

Other rural development support for agricultural and forestry businesses will be available through LEADER Local Action Groups (LAGs), the Countryside Productivity Scheme and Countryside Stewardship.

1.4 Local Context

This call invites applications for investments that improve and expand the tourism offer in rural Dorset, attracting additional day and overnight visitors that stay longer and spend more.

The [Dorset ESIF strategy](#) identifies tourism as providing significant levels of employment in the rural areas of Dorset. The strategy also identifies that

businesses reliant on tourism have the potential to increase productivity and job numbers by:

- developing new activity exploiting the local natural and cultural assets
- co-ordination and collaboration of the offer of the visitor economy

The Dorset ESIF strategy shows that the majority of food service and accommodation providers are small businesses concentrated in the rural areas of East, West and North Dorset and the Purbecks. The strategy identifies the need to develop new attractions and activities in these areas to improve the tourism offer.

The [Dorset Destination Management Plan](#) shows that during the last 6 years, overnight visits to Dorset fell by 3.6%, whilst across England the numbers have grown by 1.6%. The plan says this fall is due to the lack of activities, events and festivals that exploit rural Dorset's natural and cultural heritage. The Dorset LEP wants to extend the visitor season to make it a year-round destination by developing and promoting new activities, events and festivals outside the peak tourism season.

The tourism plan has 5 objectives:

- raise the profile of Dorset as a destination for visitors
- capitalise on the countryside and coastal resources in Dorset
- enhance the quality and distinctiveness of the tourism offer
- support the development of tourism businesses
- strengthen the Destination Management delivery structures and processes

2. Call Overview

2.1 Purpose of the Call

Theme – Supporting tourism in rural areas

This call seeks applications that support investments in the tourism sector in rural areas.

The rural tourism sector offers a significant opportunity for growth in developing the all year round destination offer and improving the quality of tourism products. This can benefit the wider economy of rural areas through high spend on rural attractions and accommodation as well as an increase in tourism based enterprises and job opportunities.

By providing EAFRD investment, Dorset LEP aims to support the creation of distinctive and high quality destinations based on what each individual

destination can offer. Projects that show benefits to multiple tourism business are encouraged.
